How to build this video

1. gemini :

Setting -> Gem manager -> your Gems -> create Gems on web here -> give your Gem a name -> add content of " gem instruction.pdf" in instructions part-> Save -> add 2 photo [1. Location , 2. product] -> get 2 prompts from this inputs.

2.Google flow :

Upload location photo and product from up the page. -> add these photos to prompt(input) -> add prompt1 to inputs -> generate video1 [8s , 9:16 , x1] from prompt 1

Pause last frame in video1 and get screenshot from last frame with up of the video - > upload last frame from up -> add last frame and add prompt2 to promt(input) -> generate video2 [8s , 9:16 , x1] from prompt2
